

ArabellaBlue® 'FC14-062'

ArabellaBlue® 'FC14-062' is a very vigorous, precocious variety that appears more widely adaptable than 'Draper'. In Fall Creek trials, the yield surpassed current early-mid season varieties in the first year of fruit production and has continued to have superior yields year over year.

The fruit is exceptional at harvest, with a strong aromatic flavor, and continues to have superior quality after long term cold storage.
