

LOW-NO CHILL

BiancaBlue® 'FCM12-087'

BiancaBlue® 'FCM12-087' is a standout variety for its low-acid aromatic fruit flavor and good retention of bloom. BiancaBlue® 'FCM12-087' fruit is firm, has a small picking scar, and low discard rates.

The majority of the crop is produced from floricanes buds. Although self-fertile, cross-pollination is highly recommended to ensure maximum fruit size. The sprawling plant shape requires proper pruning to get upright growth and trellising may improve production efficiency.
